AID TO SCHOOLS

FORTY-TWO NODAWAY DISTRICTS ENTITLED TO STATE HELP.

ONLY HALF GET MONEY

Others, Through Negligence, Fail to Meet Requirements—Superintendent Oakerson Explains Them.

Forty-two school districts in Nodaway county are entitled to state aid, and about one-half of them will receive their apportionment of money this year. The others have failed to meet the requirements and probably cannot do so now, as the time limit is June 30. The amount each district is entitled to under this state aid provision is $100.

County Superintendent Oakerson said today that the requirements which the state makes of a district before it is entitled to aid are few and could easily be met by everyone of the forty-two Nodaway districts. Those districts which have failed to meet the requirements this year have done so largely through negligence rather than because of lack of ability. The requirements are:

1. The valuation of the district must not exceed $50,000.

2. The district must vote a levy of 65 cents.

3. An average daily attendance of fifteen or more must be maintained, or if the district's enumeration is less than fifteen at least 60 per cent of the children must attend.

Many of the districts have failed to meet the requirements because they have a levy of less than 65 cents. However, Mr. Oakerson says, many of them have a levy of as much as 60 cents, and the small increase necessary to meet the requirement would not be too much to make for the purpose of securing aid. Some districts have failed to keep up the necessary attendance.

Another thing which Mr. Oakerson points out as the cause of many schools not receiving aid is their failure to spend their surplus funds on needed improvements. If a school has any surplus funds they should be spent on improvements at once, he says, for if held over the state will not give any aid and this money, which ought to go into improvements, will have to be used to help run the school next year.

As it is already too late to increase the attendance record of the schools and almost too late to vote a new levy, Mr. Oakerson says that the districts which have not met these requirements will have to wait until next year before they can receive any aid from the state. This aid amounts to about one-fifth of the total expenses of a district.

TO RAISE MONEY

M. E. CONVENTION ADOPTS NEW FINANCIAL PLAN.

WAS BIG CONFERENCE

Many Maryville Persons Attended—Went On Train and in Cars—Christy and Cox Spoke.

A new plan for raising church finances was adopted yesterday by the district convention of the Methodist Episcopal church, which met in Burlington Junction. The purpose is to secure a systematic method of financing all the churches in the district. The plan embraces six points, and the money to be raised is the general fund with which to meet the yearly expenses of the churches.

The first point in the plan is to educate the people to giving. A campaign of information and inspiration will be carried on throughout the year by means of special sermons, addresses and literature.

Second is an annual every-member-canvass. This will be for the purpose of getting pledges from every member of the church for money with which to meet the benevolent and current expenses.

The third point emphasizes the weekly offerings. The subscriptions raised are to be paid by the weekly offering plan, and every church member, young and old, will be urged to pay his subscription in this way.

Fourth will be the adoption of the duplex envelope system.

The fifth step in the plan provides for two budgets and two treasurers. One budget will be for the churches' local expenses and the other for the outside expenses. A treasurer will be chosen to handle each of the budgets.

The last point in the new plan asks that the payment of remittances to the different boards be made quarterly.

Many Maryville persons went to Burlington Junction yesterday on the train and in cars to attend the convention. They report a large attendance from all over the district and an excellent series of meetings.

The morning session was given over to addresses by some of the national church officers, who talked on the individual work that each church must do in the home and foreign fields. The entire afternoon was taken up with the discussion of the new financial plan, which was adopted.

Dr. W. B. Christy and the Rev. Gilbert S. Cox of Maryville were both on the program.

WM. HENDRY DIES

HOPKINS FARMER SUCCUMBS TO PARALYSIS THIS MORNING.

STRICKEN AT FUNERAL

He Was Attending Burial of His Neighbor, Clyde Lincoln—Funeral Will Be Held Sunday.

William Hendry, a farmer living eight miles east of Hopkins, was stricken with paralysis yesterday afternoon while attending the funeral of his neighbor Clyde Lincoln. He died between 3 and 4 o'clock this morning without having regained consciousness. The funeral will be held Sunday, and the burial will take place in the Hopkins cemetery.

As Mr. Hendry was leaving the house of John Brown, father-in-law of Clyde Lincoln, at which place the funeral was being held, he staggered and fell to the ground unconscious. He was picked up, carried to his carriage and taken home. Dr. Sargent was called from Hopkins, but could do nothing to save him. Mr. Hendry lay unconscious the rest of the day and until his death early this morning.

The funeral which Mr. Hendry was attending was that of Clyde Lincoln, who died at 2 o'clock Monday afternoon, after a long illness of tuberculosis. Mr. Lincoln was the son of Henry Lincoln and had lived near Hopkins all his life, except for a short time when he traveled for his health. He was married in March, 1913, to Miss Ethel Brown, daughter of John Brown, with whom they lived and at whose home Mr. Hendry was stricken.

GRANTS LICENSE TO HELLER.

County Court in Special Session Today and Took Up Bridge Matters.

A special session of the county court was held today and a dramshop license for six months was granted to W. A. Heller, to be located in the building on North Market street.

The court issued requisitions on the state auditor for $306 for road work done on a public road in Jackson township, and also one for $13,260 for Union township. As Union voted a $15,000 bond issue and has spent the money for permanent road improvements, she is entitled to $15,000 from the state. Last year Union received $1,740 from the state, leaving a balance of over $13,000 yet due. The work in Jackson township was done by J. W. Moss, Preston Seafers, Hubert Null, Smiley Casteel, O. T. Anderson and others, and money was raised to the amount of $306 by those interested.

HAD TO SHOOT VALUABLE HORSE

George Lucas Lost $200 Animal When Its Leg Was Severed by Dirt Scraper.

George Lucas had to shoot a horse, which he valued at $200, yesterday afternoon when one of its hind legs was severed nearly in two by a dirt scraper

Mr. Lucas was at work with his team helping A. O. Mason grade the race track and put the fair grounds in shape for the races and county fair next fall. He was filling a ditch near the track at the time the accident occured. The ditch had been filled nearly level, and in dumping a scraper full of dirt into it Mr. Lucas threw the scraper over with too much force. One of the handles stuck in the soft earth and threw the scraper over in such a way that the sharp edge struck the horse's leg and nearly cut it off. Nothing could be done except kill the horse

PRETTY GIRLS VS SAND BAGS

Hopkins Journal Thinks Women Make Better Ballast and Other Things and Tells Jakey Haaf So.

The Hopkins Journal thinks that for purposes of ballast—at any rate when it comes to holding down the back seat in an automobile—a pretty girl is much better than a 200 pound bag of sand. She can not only keep the car from bouncing around so much but she can use her arms for various things, sewing on buttons for instance. But read what the Journal says in counsel to a Hopkins man who used a bag of sand the other day.

"Hopkins is full of beautiful girls, yet Jakey Haaf, the good looking baker and land owner, persists in walking life's highway alone. Realizing that it takes "sand" to get a woman, he decided that the same ingredient might be used to hold down the rear of his car, thus making it ride easier, so when he left last Sunday morning for Iowa, a 200 pound sack of sand occupied the rear seat of his automobile.

"But Jakey, think how much nicer it would be if you had had about one hundred and fifty pounds of Hopkins sweetness "all dolled up" in your car instead of that old cold lifeless sack of sand.

"Your car would not only have been waited down but you would have some one to entwine her lovely arms around your neck, sew on your buttons, call you "dearie," toast your bread, blow in your money and make life one long voluptuous happy dream.

"We advise you to throw away the sand, using just enough of it to make the step that you should have taken many years ago."

News of Society and Women's Clubs

Club Women Call Men a "Blessing."

Here is a nice, pleasant piece of news (with a bouquet attached) for the men.

The humble fellows will be all overcome with modesty and not one will admit he read it, but just the same there won't be a cross man in Maryville after they hear this.

Every one of them will be perfectly good and as tractable as lambs when told that three thousand women cheered the American man as "the greatest blessing to womankind" at the meeting of the General Federation of Women's Clubs in Chicago the other day.

The tribute to the nation's bread winners that aroused the applause of the delegates was delivered by Mrs. Percy V. Pennybacker, president of the federation. And the news goes on to say that the cheering was most terribly loud and long.

"My friends," Mrs. Pennybacker said, "think what a splendid thing it is for us that we have the club husband. Think of the sympathy they have given us in our work. What a wonderful blessing to us is the American man."

Writes a Public Letter to Friends.

Marfa, Texas, June 7, 1914.—To My Friends: I want to write to you through The Democrat-Forum of the conditions we have found in our new home here.

"We live in the center of a valley about thirty miles wide. We are sorry for you when we read of the dry weather in Missouri, for we have had plenty of rain here. All the ponds (tanks they call them here) are full to the brim. The grass is looking fine.

"This year we are farming forty acres of land, six of them in garden truck and the rest in corn, oats, cane and millet. All the crops are doing well. One does not need to irrigate except for early market stuff.

"Dairying is a profitable business here. Butter is worth 40 cents the year round. Eggs sell for 30 cents. The orchards give promise of a good fruit crop this year.

"We've heard nothing from Mexico for some time. When it was reported that war was declared with the United States the Mexicans must have taken to the mountains and stayed there, for we have seen nothing of them.

"Very truly yours,

"M. P. GINGRICH AND FAMILY."

Preparing For Frisco Prizes?

The secretary of the state board of agriculture suggests that the good farmers of Nodaway county get busy preparing to win prizes at San Francisco next year. The best way is to prepare for winning firsts at the local home products show or county fair, then sending it on to Sedalia to take off the state fair honors. Missouri's best in agriculture and live stock should be shown at the Panama-American exposition. Will your share be there? Missouri should win as many prizes as in 1893 and 1904—why not?

GOOD SUGGESTION TO MARYVILLE PEOPLE

It is surprising the amount of old, foul matter the simple mixture of buckthorn bark, glycerine, etc., known as Adler-i-ka, drains from the system. This remedy became famous by curing appendicitis and acts on BOTH the upper and lower bowel so thoroughly that ONE DOSE relieves sour stomach, gas on the stomach and constipation almost IMMEDIATELY. We are mighty glad we are Maryville agents for Adler-i-ka. The Koch Pharmacy.

Miss Clara Jameson of Stanberry has returned to her home after a visit in Maryville at the home of Mr. and Mrs. J. B. Cummins.

Mrs. N. W. Templeton and daughter, Neva, went to St. Joseph Thursday morning for a day's visit.
